Negroes Charged with Stealing Restaurateur's Watch.

When Fred Bowen, of 441 First street southwest, and Moses M. Mumford, of 1613 Third street northwest, both ne-groes, appear in police court this morn-ing they will be charged with stealing a gold watch from Charles H. Fred, a res taurant keeper.

It will be up to the judge to decide which is the thief, for each accuses the other of stealing the watch and between them there was a lively discussion yes-terday when they were arrested and brought face to face by Detectives Bur-lingame and Springman.

Fred missed his watch a week ago and yeaterday Bowen was seen pawning the timepiece. He said that Mumford had taken the watch, and when confronted with this evidence Mumford made the air blue for several minutes.

SENATORS TO TALK ON MANY TOPICS

Speeches Not to Be Confined to Reciprocity.

It is very evident from the notices that have been given in the Senate of speeches to be delivered that the special session is not to be confined exclusively to the consideration of Canadian reciprocity.

Senator Owen, of Oklahoma, has given notice that he will address the Senate in support of the commission plan of municipal government: Senator Works, of California, will talk on the bill creating a department of public health; Senator Newlands expects to discuss the merita of his bill to create an interstate trade commission, and Senator Swanson, of Virginia, has announced that he will talk or Friday in support of national good roads.
It is likely that carry next week
Senator Sutherland, of Utah, will talk on the initiative, referendum, and recall, but his speech will be addressed to the Statehood resolution, and, therefore, per-tinent to a subject that is before the

These various notices of impending speeches are received with much inter-est in the Senate, because they shed some light on the prospects for the adjourn-ment of Congress. The date of the adjournment is depending entirely on talk. The only thing that remains for the Sendo is to talk until everybody is

The Danger of Imitations.

An Ohio druggist writes to "The Practical Druggist," a prominent New York Drug Journal, as follows: "Please furnish formula for Castoria. All the formulas I have worked with are either ineffective or disagreeable to administer."

To this "The Practical Druggist" replies: "We do not supply formulas for proprietary articles. We couldn't if we wanted to. His experience with imitative formulas is not surprising, but just what is to be expected. When Castoria is wanted, why not supply the genuine. If you make a substitute, it is not fair or right to label it Castoria. We can give you all sorts of laxative preparations for Children, but not Castoria, and we think a mother who asks for Castoria would not feel kindly toward you if you gave her your own product under such a name."

No mother with a spark of affection for her child will overlook the signature of Chas. H. Fletcher when buying Castoria.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee.
